

The influence of the decreasing transport price on the Quality and Supply Chain Safety

ENFIT will inform you about the risks of the supply chain. Where are the risks in detail? What are the reasons for this and what impact does that have on the stakeholder involved and consumer protection?

What needs to change? How can such an urgently needed change be achieved?

Using examples and provocative statements, we want to sensitize the participants in the supply chain. But, I want to make it clear that all stakeholders have a responsibility. Changes are only possible if all stakeholders pull together.

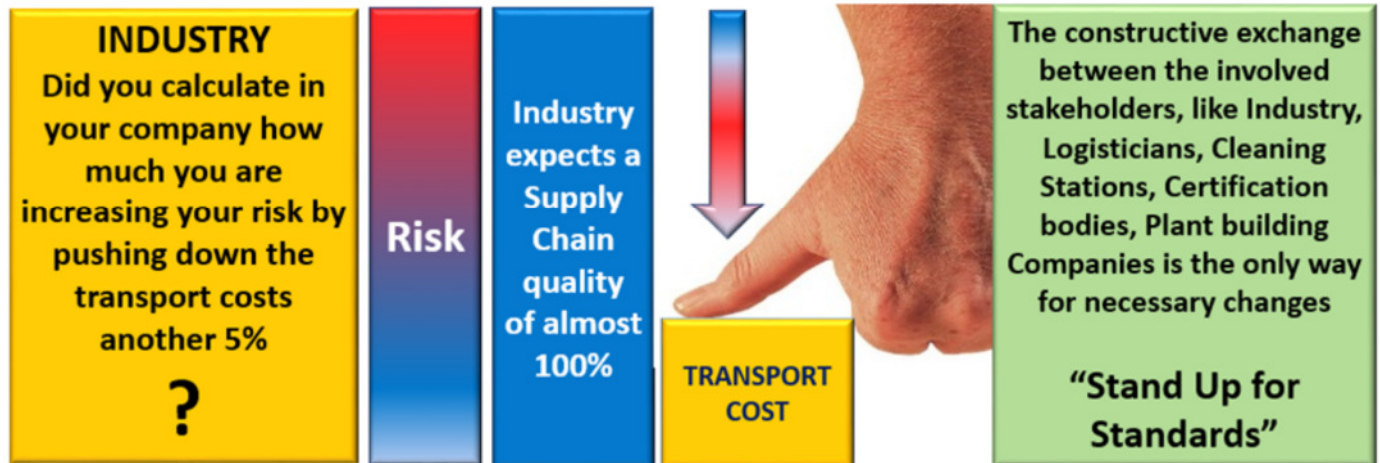

To work constructively ENFIT has initiated an European Working Group.

Industrial participants such as CARGILL, ROQUETTE, MARS, BARRY CALLEBAUT, BULKVISION, EUROFINIS, NAGEL GROUP, VAN DEN BOSCH, PS TRUCK WASH, LOCK YOUR WORLD, CARAMBA, VIROBUSTER, FFB FELDBINDER, KIEHL GROUP, LÖHRKE, QUADRAGARD, NORDIC SUGAR, SÜD ZUCKER, MONDELEZ, COPPERNRATH & WIESE, FRAUNHOFER INSTITUT VV, QM-TRAINER, AMPHORA HEALTH CARE, EHEDG, MEGA-INLINER, EU COMMISSION, BFR-BERLIN, develop together the content of European and international standards, the European Commission DG SANTE will publish in 2019.

Quality can not be given free of charge. Without standards no performance comparison !
